

Call for Papers

Organization Committee

Honorary Chair

- Mohammad S. Obaidat, KASIT, Univ. of Jordan, Jordan, mobaidat@gmail.com

General Chair

- Malamati Louta, Univ. of Western Macedonia, Greece, louta@uowm.gr

Program Co-Chairs

- George Karetsos, Univ. of Thessaly, Greece, karetsos@uth.gr
- Steven Latrè, Univ. of Antwerp, Belgium

Tutorial Chair

- Maria Calzarossa, Univ. of Pavia, Italy, mcc@unipv.it

Publication Chair

- Alexandros-Apostolos Boulogeorgos, Univ. of Western Macedonia, Greece ampoulogeorgos@uowm.gr

Publicity Chair

- John Vardakas, Iquadrat, Spain, jvardakas@iquadrat.com

Webmaster

- Antonio Bueno, Univ. of Girona, Spain, antonio.bueno@udg.edu

Technical Program Committee

- Ala'a Al-Habashna
- Peristera Baziana
- Alexandros-Apostolos Boulogeorgos
- Christian Callegari
- Maria Carla Calzarossa
- Vicente Casares-Giner
- Minas Dasygenis
- Franco Davoli
- Joaquin Entrialgo
- Peppino Fazio
- Daniel Garcia
- Mary Grammatikou
- Fabrizio Granelli
- Carlos Guerrero
- Helen Karatza
- George Karetsos
- Zbigniew Kotulski
- Thomas Kyriakidis
- Steven Latre
- Sanja Lazarova-Molnar
- Alejandro Linares-Barranco
- Pascal Lorenz
- Malamati Louta
- Mario Marchese
- Alvaro Marco
- Luisa Massari
- Pierre Olivier
- Yahya Osais
- Nikolaos Ploskas
- Gianluca Reali
- Georgios L. Stavrinos
- Daniele Tessera
- George Tsihrintzis
- John Vardakas
- Iraklis Varlamis
- Víctor Villagrà
- Manuel Villen-Altamirano
- Gabriel Wainer
- Bernd wolfinger

SPECTS 2021

2021 International Symposium on Performance Evaluation of Computer and Telecommunication Systems

Hybrid Event

<http://atc.udg.edu/SPECTS2021/>

July 19-22, 2021 George Mason Univ., Fairfax, Virginia, USA

The goal of this annual conference is to provide a forum for professionals and researchers to discuss and disseminate the most promising contributions on performance evaluation of computer and telecommunication systems. Papers describing results of theoretic and/or practical significance are solicited. Experimental, modeling, analysis, and simulation studies as well as testbed deployment, field trials and experiences gained are all in the scope of the conference. Work presenting novel performance evaluation methods or providing insights on design and runtime tradeoffs are particularly encouraged.

Accordingly, the conference will focus on, but will not be limited to, the following subjects of interest:

Networking Technologies and Telecommunication Systems

- Future Internet and next Generation Networking
- 5G & Beyond
- Hyperdense networks
- Massive MIMO
- mm Wave communications
- Terahertz communications
- Multiple access, multiplexing, modulation, and coding techniques
- Cooperative communications and networking
- Cognitive radio and networking
- Autonomic Networks
- Software Defined Networking
- Network Function Virtualization
- Cloud Radio Access Networks
- Radio over Fiber
- Flexible optical networks
- Optical-Wireless communication and systems
- Visible light communications
- Internet of Things and enabling technologies
- Machine to Machine systems
- Device to Device communications
- Cyber Physical Systems
- Wireless ad-hoc Networks
- Wireless Sensor Networks
- Delay Tolerant Networks
- Opportunistic Networks
- Vehicular ad-hoc networks / connected vehicles
- Nanonetworks
- Satellite and Space communications and networking
- Network design, optimization, management, and performance evaluation
- Traffic engineering, network reliability, Quality of Service / Experience

Computer Systems

- Parallel and Distributed Computing
- Service Oriented Architectures and Microservices
- Cloud and Edge Computing
- High Performance Computing
- Distributed and Mobile Middleware
- Computer Architectures
- Microprocessors
- Multi-core processors
- Memory systems
- High performance I/O
- Big Data Analytics, AI Applications and Machine Learning
- Software Engineering, Performance, Evaluation and Testing
- Verification and Validation
- Programming Languages
- Parallel Algorithms
- Data Storage Systems
- Fault tolerance, signal processing, and coding techniques

Tools & Methodologies

- Modeling and Analysis
- Performance Optimization, Bounds and Models
- Stochastic Models
- Queuing Systems and Networks
- Neural Networks and Fuzzy Logic Applications
- Integrated Modeling and Measurement
- Mathematical Aspects and Integrated Design of Performance
- Verification and Validation
- On-Line Performance Adaptation and Tuning
- Parallel and Distributed Simulation
- Case studies, Testbed deployments, field trials and experiences
- Scalability Studies

Special Tracks and Areas of Interest include:

- Artificial Intelligence (AI) for communications and computing
- Internet of Things technologies and applications
- Performance aspects and trends of Socially Aware systems
- Orchestration strategies for mobile edge computing systems
- Security and Performance in Computer and Telecommunication Systems
- Aspects and Trends in Software Engineering and Evaluation

Paper Submission

Please submit your complete papers electronically to: <https://www.softconf.com/sim/SPECTS21/>

Instructions for authors will be posted on the conference website: <http://atc.udg.edu/SPECTS2021/>

The conference proceedings will be submitted to the IEEE Xplore Digital Library®.

Proposals for tutorials (max 2 hours) should be sent to the Tutorials Chair.

Best Paper Awards

All accepted papers will be evaluated for a best paper award based on originality and technical contribution by an external commission.

SPECTS Steering Committee

- Franco Davoli Univ. of Genoa, Italy
- Pascal Lorenz, Univ. of Haute Alsace, France
- Mohammad S Obaidat, KASIT, Univ. of Jordan (Chair)
- Jose L. Sevillano, Univ. of Seville, Spain
- Helena Szczerbicka, Leibniz Univ. of Hannover, Germany
- Laurence Yang, St. Francis Xavier Univ., Canada

Sponsored by

The Society for Modeling and Simulation International, SCS

Technically Sponsored by

IEEE Communications Society

Deadlines

Tutorial proposals	Extended to May 31, 2021
Paper submission	Extended to May 31, 2021
Author notification	June 14, 2021
Camera-ready paper submission.....	June 21, 2021
